MEMORANDUM

From: Erich Schaal P.E., Port Engineer
To: Assembly Public Works and Facilities Committee
Via: (1) Port Director
(2) Docks & Harbors Board
Date: April 22, 2020
Re: Transfer Request – Statter Harbor Improvements Phase III(B)

CBJ Docks and Harbors requests approval to transfer funds from the Archipelago (Downtown Waterfront Improvements) Project and Auke Bay Marine Station Acquisition account to the Statter Harbor Improvements Phase III CIP account. The existing Statter Improvement CIP account has sufficient funding to complete Phase III (A) and award Phase III(B). The proposed transfer would provide funds for construction contingency, inspection & administration, and CBJ salaries for the float installation phase.

The request is to move at total \$887,635.69 to the existing Statter Harbor Improvements Phase III(B) CIP for planned improvements of Statter Harbor to provide additional moorage space and amenities for the passenger for hire fleet, specifically the installation of 850 lf of new floats, a second gangway, approach dock, concrete block retaining wall, new domestic water, fire suppression system, sanitary sewer, lighting and electrical services on the new floats.
