## Agenda:

1. ROLL CALL

2. APPROVAL OF AGENDA

3. APPROVAL OF MINUTES
    a. Approval of minutes from October 7th

4. PUBLIC PARTICIPATION

5. COMMITTEE & LIAISON REPORTS
    a. Annual Board Retreat October 16th

6. MANAGERS REPORT
    a. Financial Report
    b. Department update (season preparation)
    c. Summer Capital Project Update
    d. COVID 19 Operation Plans

7. UNFINISHED BUISNESS

8. NEW BUSINESS
    a. Schedule Finance Committee Meeting to discuss 2022 CIP Budget Request

9. PUBLIC PARTICIPATION

10. BOARD OF DIRECTOR'S COMMENTS AND QUESTIONS

11. ADJOURNMENT – Next meeting date December 2nd 2021 5:30pm Location TBD

**EAGLECREST BOARD OF DIRECTIORS**
**October Meeting Minutes**
**Thursday October 7th, 2021, 5:30pm**
Via Zoom

## Agenda:

1. ROLL CALL: Mike Satre, Dave Hanna, Jon Dale, Shawn Eisele, Kevin Krein, Stephanie Hoag and Mark Rainery were present. The mountain was represented by General Manager Dave Scanlan and Erin Lupro. Assembly member Wade Bryson was also present.

2. APPROVAL OF AGENDA: Mike called the meeting to order at 5:30. Shawn made a motion to approve the agenda, the agenda was approved without additional changes or objections.

3. APPROVAL OF MINUTES: September meeting minutes, Kevin made a motion to approve the minutes, the minutes were approved without changes.

4. PUBLIC PARTICIPATION:
   A) Doug Sanvik thanked the board for their time and wants to continues to try to build the luge program. He hopes the mountain will consider taking the program under its wing to advertise on the website and cover under insurance.
   B) Freb Hiltner from the JNSC thanked the staff for all their trail hardening and appreciated how it will make grooming the lower loop much easier. He raised concerns that the project is not yet finished as he recalls it was supposed to be complete in the spring of 2020 and feels this should have been prioritized over the bike paths and road building. Roman Motyka from the JNSC informed the board that several hundred metes of trail still need hardening and the JNSC is available to help.

5. COMMITTEE & LIAISON REPORTS:
   A) Assembly Member Wade Bryson informed that board that following recent elections the Assembly typically adjusts board role assignments.

6. MANAGERS REPORT:
   See Manager's Report for detail.
   Additional comments: Dave H asked the GM to present a break down of sales at the next meeting. He also asked if it was possible for staff to track the number of outside visitors coming to town this winter. Wade shared that the Assembly likes real numbers and that having exact data would be a benefit to Eaglecrest.

7. UNFINISHED BUSINESS: None

8. NEW BUSINESS: Dave S asked the board for any items they would like to discuss at the upcoming retreat. Jon asked for a review of the most recent CIP submission and time to discuss winter sustainability.

9. PUBLIC PARTICIPATION: Fred Hiltner thanked the staff and board their efforts and asked about D-1 on the rough areas on the lower loop. Doug appreciated the boards time for being able to talk about luge.

10. BOARD OF DIRECTOR'S COMMENTS AND QUESTIONS

Stephanie thanked Wade and knows he will continue to support Eaglecrest. She looks forward to seeing the lower loop and is interested to learn more about luge. She is happy to hear that Books 2 Boards will be offered this year.

Shawn was happy to hear that the mountain has been able to hire vacant senior staff positions and appreciates hearing about all the teamwork.

Kevin is really excited to see snow and is excited to talk about a second cabin.

Mark thanked staff and is looking forward to seeing the lower loop. He thanked Wade and Jeff and looks forward to the retreat.

Dave H echoed all previous comments and thanked all staff for their work and welcomed Jeff to the team.

Jon welcomed Jeff to the team and shared how impressed he was to see all the new snowmaking pipe in place and is looking forward to the retreat.

Assembly member Bryson shared with the group how much he has enjoyed serving as the liaison. He stated that Eaglecrest is truly the gem of the community and is proud of the boards works to make sure the facility remains a part of the community. He has really appreciated our time together and has always enjoyed our meetings.

11. ADJOURNMENT – The next meeting date is November 4th, 2021. The meeting was adjourned at 6:59 pm.

# Manager's Report November 2021

**Financial Report:** The chart below reflects that annual revenue and expenses as accrued year to date for each year shown. As you can see below our revenue year to date has been extremely strong. At this point in time we have caught up to the anomalies that we had last month with the close of our tier one seasons pass sale being earlier than all previous years. The only other revenue anomaly that could be skewing this years numbers is that, similar to last year, we did not sell seasons passes through Foggy Mountain Shop or Nugget Alaska. In years prior to 2020 we would not get revenue from the seasons passes sold through our partners until the middle or late December. On a large year this may have accounted for as much as $120,000 in revenue. As you can see, last year was the largest revenue year in the chart and we

are still leading by $200,000. On the Expense side of the equation it we have been doing our best to keep good controls on our expenses this year. In our Ski Area Administration other expenses category, bank card fees, full cost allocation, insurance increases and a large order of ticket media stock are driving the increases. Expenses in our Vehicle Maintenance is up as we have been running more heavy machinery over the summer construction season and repairing equipment to prepare for opening.

**Mountain Operations:** The mountain operations team has finished up all of the annual maintenance and repairs on the all of the chair lifts. Our annual ski lift inspection was on Tuesday. Tom Skully our inspector was very pleased with the work that our Head Lift Mechanic has been accomplishing and has a lot of confidence in his abilities to keep all of our lifts in good working condition. He encouraged us to continue looking for an assistant to help share the work load. He provided some initial thoughts on some of the larger upgrades to contemplate as we go into our CIP planning. We will receive our final inspection report in the next two weeks.

The Crew has been busy working on many projects to prepare for the season cleaning up and organizing the shop yard and repurposing construction supplies for the use in our Tubing Cabin renovations. The new window has been installed in the Ptarmigan top lift shack along with new window and door trim. Repairs to the Eagles Nest have been completed. The new Hooter seat pads have arrived and have been installed. Servicing to the groomer tillers have been completed. Trouble shooting the Fish Creek Lodge Thermostats and heating system is underway in an effort to save on fuel and run the Lodge more efficiently. General Mountain clean up is nearly complete with mountain bike trail signage put away for the winter. The damaged lamp post has been repaired in the parking lot. New communications line has been run for our water treatment plant.

**Ski Patrol:** The Ski Patrol team is going to be starting up their preseason training this week going through EMT refreshers, avalanche training, chair evacuation training and other preseason mountain work . Preparation is also underway to implement OSHA's new safety standard for Chair Lift Evacuation Training. The Director has been able to trouble shoot and fix some electrical issues with our top of Ptarmigan and Powder Patch weather stations. He has also been busy updating our safety and operations plan and preparing for staff training. Dawn Riley has been appointed as the new Ski Patrol Supervisor in replacement of Dale Gosenell.

**Base Operations:** Our new Base Operations Manager has been doing a good job learning many of the tasks related to cash transmittals, budget tracking and Human Resources personnel transactions. He has just started to learn the some of the point of sale functions. He will be very busy on boarding and reactivating all of our seasonal staff over the next month. We are still looking for addition cashiers in the ticket office and food service.

**Marketing and Events:**

**SSS & RRR:** The Snowsports School staff have been doing a great job of pre-booking lesson programs, communicating with the School district, and scheduling homeschool lessons. Many programs are sold out with waitlists for future slots that might open up. Erin is still looking to hire on more instructors and receive confirmation of availability for returning instructors.

We are starting to see a steady stream of equipment coming into the repair shop for early season tune ups and mounting. The rental shop has also had a good flow of people coming through to get pre-fitted for their rental equipment.

We are still looking for ski and snowboard instructors, a Snowsports Administrative Coordinator and Rental Shop Techs.

**Capital Projects Snowmaking Expansion:** Our progress on our snowmaking expansion has been moving along at a blistering pace. This project has been made entirely possible by the Eaglecrest Foundation's fundraising efforts. Extensive work has been done over the past month to reconfigure our valving in our lower valve house to allow our older weaker water line to be used as central air distribution for our air/water snowguns. We have purchased 8 new HKD air/water snowguns. The Eaglecrest Foundation has purchased a used electric air compressor that produces 650CFM of air which is enough to run 13 of our 14 air/water guns. Our diesel air compressor can produce enough air to power 7 of the air/water snowguns. This additional air capacity will give us room to expand our feet of air/water snowguns in the future.

SJS Construction helped us "pioneer" a new service road over to the top of log jam at the top of the newly installed water pipe. The Mountain Operations Crew has installed culverts and laid rock in on the softer portions of the road in addition to laying in 3 feet of rock on the first 200 feet of road in preparation for transport of our new water pumping station. We have purchased a used 400 KW Generator that will be installed with our new 950 gallon per minute water pump at the top of log jam. We hope to move the new pump station up the mountain by early next week. If we can repair all of our existing fan guns that are being currently worked on, we will be in a position to run 28 snowguns at one time and pump 1480 gallons per minute at 450 psi of water pressure. Being able to deliver that much water flow at the high pressure will be a game changer for efficiency of operations and may allow us to blow in Sourdough top to bottom and all of Porcupine at one time. With the increased volume of pass sales this year it is more important than ever that we are able to show our users that we have the ability to guarantee good skiing and snowboarding conditions despite the fluctuating whims of Mother Nature.

The renovation to the old Tubing Park Cabin has been slowly taking shape. We hope to be able to open up reservations for the Cabin by spring. The cabin will have two separate sleeping rooms and have electricity with the goal of making it ADA accessible in the future.
