### **I) Call to Order**

Meeting called to order at 5:35 pm.

### **II) Agenda Topic**

Chair LeVine began the discussion by focusing on process. There were differing views among committee members on the purpose of the committee. Eventually, consensus was reached that the committee is charged with making a recommendation to the Assembly on whether an update to the Comprehensive Plan is warranted and, if so, what the scope of that update should be. The committee will forward its recommendation to the Planning Commission, which would then forward its recommendation to the Assembly Committee of the Whole.

The committee would like the participation of the city manager, the Assembly liaison to the Planning Commission, and one other Assembly member.

The committee would like staff to:

- provide links to comprehensive plans from other communities similar to Juneau and from other Alaskan communities,
- research models for reviews or updates to comprehensive plans used by other communities,
- report on how the individual plans that are adopted as part of the comprehensive plan relate to the comprehensive plan.

Chair LeVine posed the rhetorical question “How do we know the plan reflects community values?” The committee agreed that the level of public input should be proportional to the degree of change contemplated by the comprehensive plan update.

### **III) Next Meeting**

### **VI) Adjournment**

The meeting adjourned at 6:50 pm.
